

ACTIVA® Blackjack Tan Stoneware Clay

WHY CHOOSE ACTIVA® BLACKJACK CLAY?

Blackjack is a high plasticity blend of screened clays that provide a smooth texture perfect for everyday use.

IS ACTIVA® BLACKJACK OVEN-SAFE?

Yes! After firing, Blackjack is waterproof, chip-resistant, and oven-safe.

IS ACTIVA® BLACKJACK MADE IN THE USA?

ACTIVA proudly uses a blend of clays mined here in East Texas, USA.

GLAZE RECOMMENDATIONS

Glazes can be applied directly to the greenware for a single firing, or to bisqueware with a second glaze firing.

For firing, leave the bottom of the piece unglazed and place on the kiln shelf.

Always test fire for glaze compatibility.

ACTIVA® Blackjack Tan Stoneware Clay is a blend of several natural clays and minerals formulated for a wide range of use cases. The unique process of blending and wet screening results in a clay that has a silky-smooth texture with great plasticity.

Chocolate brown color when wet yet fires to a soft buff/tan color. Blackjack takes glazes well, and they can be applied directly to the greenware for single firing or to bisqueware with a second glaze firing.

Excellent for throwing on a potter's wheel, hand building, slab rolling, sculpting, or modeling. Fire in a kiln from cone 6 - cone 8. Great for beginners as well as professional potters.

Firing range: Cone 6-8 (2269°F - 2320°F)
Moisture content: 17-19%
Firing shrinkage at Cone 6: 8.0%
Porosity (water absorption at Cone 6): 12.0%
Texture: Smooth
Wet color: Milk chocolate brown
Firing color: Tan
Non-toxic
