

ACTIVA® Blackjack White Earthenware Clay

WHY CHOOSE ACTIVA® BLACKJACK CLAY?

Blackjack is a high plasticity blend of screened clays that provide a smooth texture perfect for everyday use.

IS ACTIVA® BLACKJACK OVEN-SAFE?

Yes! After firing, Blackjack is both chip-resistant, and oven-safe.

IS ACTIVA® BLACKJACK MADE IN THE USA?

ACTIVA proudly uses a blend of clays mined here in East Texas, USA.

GLAZE RECOMMENDATIONS

Glazes can be applied directly to the greenware for a single firing, or to bisqueware with a second glaze firing.

For firing, leave the bottom of the piece unglazed and place on the kiln shelf.

Always test fire for glaze compatibility.

Earthenware pieces are not waterproof after firing.

ACTIVA Blackjack White Earthenware Clay is a versatile and user-friendly earthenware clay made from a blend of natural clays and minerals. When wet, it has a light gray color but transforms into a smooth white talc body when fired.

This clay is suitable for various pottery techniques, including hand modeling, hand building, slab rolling, and wheel throwing. It offers excellent plasticity and is ideal for artists of all levels, from beginners to professionals.

Featuring a firing range between cone 06 and cone 04, this clay is well-suited for use with a personal home kiln.

Firing range: Cone 06-04 (2269°F - 2320°F)
Moisture content: 16-20%
Firing shrinkage at Cone 6: 10%
Porosity (water absorption at Cone 6): 14%
Texture: Smooth
Wet color: Gray
Firing color: White
Non-toxic
